

Fully-funded PhD
Department of Mechanical Engineering
University of Bristol

November 2015

PhD starting time:

Between September 2016 and June 2017;

Supervisor information and research topics:

Dr Jiang received the Bsc and Msc degree from Shanghai Jiao Tong University (China), and the PhD degree from University of Cambridge (U.K.). He has been a Research Associate at the Control Group, University of Cambridge before joining the Mechanical Engineering department, University of Bristol (U.K.), as a lecturer.

Dr Jiang's research focuses include dynamics and control for linear and nonlinear systems, vibration mitigation, passive & (semi-)active suspension design, and engineering related mathematical problems, such as network synthesis theory.

Full funding opportunities:

1. University of Bristol Alumni Scholarship;
2. University of Bristol Postgraduate Research Scholarship;
3. EPSRC Doctoral Training Partnerships (UK/EU applicants only);
4. University of Bristol – China Scholarship Council joint scholarships;

Note: **Deadline for 1-3: end of January 2016;**

Deadline for 4: please refer to China Scholarship Council website;

Further information: <http://www.bristol.ac.uk/engineering/graduate/pg-open/funding/>

Entry requirement:

- Final year undergraduate and master student **with excellent academic record;**
- English language requirement for Postgraduate study:
IELTS 6.5 overall, minimum 6.0 in all bands or
TOEFL: Internet based iB - 90 overall, minimum 20 in any part;

Note: English language requirement can be lowered for students with exceptionally good academic records or research experience.
